Vaccination Amnesty 2010

Thousands of pets die each year from preventable diseases and tempting as it may be to miss that next injection to save a few pounds you could be putting your pet at risk from some potentially fatal diseases. That's why our veterinary practice is running a **Vaccine Amnesty during the month of August**, which aims to ensure that every pet is fully protected.

For further information about the importance of vaccination visit the vaccination information page of our website by clicking on this link: <http://www.ovg.co.uk/vaccination.html>

Restarting vaccinations involves **2 injections** 2-4 weeks apart and at the same time includes a health check. If your pet is over 18 months of age and it is behind with its vaccinations we will be providing the **full course** at the reduced cost of a booster **SAVING you up to £22.**

Please contact the surgery on 01458 832972 to make an appointment or for further information.
